This definitive record sets out the essential features and characteristics of the BA (Hons) Childhood: Primary Education with QTS course. The information provided is accurate for students entering level 4 in the 2024-25 academic year⁵.

Course Summary

The BA (Hons) Childhood: Primary Education with QTS explores the diverse, multi-faceted experiences of children through a range of perspectives, with a particular focus on acquiring an in-depth understanding of Primary Education and professional specific knowledge and practice skills required for the attainment of Qualified Teacher Status (QTS). The programme is offered within the School of Social Sciences and Humanities in partnership with local Initial Teacher Trainer (ITT) providers.

This programme is distinctive from traditional undergraduate programmes as it provides you with an accelerated route into the teaching profession. Each year consists of a full-time academic programme (120 credits of academic modules) in combination with a yearlong school placement in which you will work towards obtaining Qualified Teacher Status (QTS).

In Year 1, all academic modules are situated within the BA Childhood programme, delivered by University of Suffolk. From Year 2 onwards, you will take 60 credits within the Childhood programme. The remaining 60 credits (professional, subject-specific modules) are jointly delivered by the ITT providers. Throughout all three years of the programme, practice will be a combination of year-long placements in combination with more intense practice blocks. You will be allocated a different school each year to ensure a range of settings and teaching contexts.

Upon successful completion of the programme, you will have obtained Qualified Teacher Status which will allow you to take up a qualified teacher position in a primary school.

Course Aims

- Develop students' systematic knowledge and critical understanding of the processes that shape childhood and children's lives in a range of cultural and societal contexts and through a range of disciplinary lenses.
- Cultivate a questioning and critical approach to the multiple theories, perspectives and philosophies surrounding childhood through a holistic approach, addressing different levels of analyses.
- Develop critical evaluation of contemporary issues and debates within childhood from local, national and international contexts.
- Develop an appreciation and understanding of issues of children's rights, diversity and inclusion in childhood, and ethical principles, enabling them to apply this knowledge to policy and practice.
- Develop professional, subject-specific and transferrable skills essential to employment, further study, and personal development.
- To prepare Trainee Teachers to teach across the 3-11 age range.

⁵ The University reserves the right to make changes to course content, structure, teaching and assessment as outlined in the [Admissions Policy](#).

DEFINITIVE COURSE RECORD

- To enable Trainee Teachers to engage in a reflective and practice-based programme of training linked strongly to an appropriate level of academic and theoretical study.
- To enable Trainee Teachers to develop a thorough grounding in the research and academic skills and knowledge that support the role and professional practice of teachers and to demonstrate that they have met the teacher standards for QTS.
- To enable Trainee Teachers to consolidate their knowledge and understanding of teaching young children and application to the National Curriculum and the Early Years Foundation Stage (EYFS).

Course Learning Outcomes

The following statements define what students graduating from the BA (Hons) Childhood: Primary Education with QTS course will have been judged to have demonstrated in order to achieve the award. These statements, known as learning outcomes, have been formally approved as aligned with the generic qualification descriptor for level 6 awards as set out by the UK Quality Assurance Agency (QAA)⁶.

Students who successfully complete the BA (Hons) will have demonstrated:

1. A systematic understanding of key aspects of childhood disciplines, including acquisition of coherent and detailed knowledge, at least some of which is at, or informed by, the forefront of defined aspects of a discipline, and an appreciation of the uncertainty, ambiguity and limits of knowledge.
2. Well-developed conceptual understanding that enables the student: a) to devise and sustain arguments, and/or to solve problems, using ideas and techniques, some of which are at the forefront of a discipline; b) to describe and comment upon particular aspects of current research, or equivalent advanced scholarship, in the discipline.
3. Well-developed ability to critically evaluate arguments, assumptions, abstract concepts and data (that may be incomplete), to make judgements, and to frame appropriate questions to achieve a solution - or identify a range of solutions - to a problem.
4. Well-developed ability to apply the methods and techniques that they have learned to review, consolidate, extend and apply their knowledge and understanding, and to initiate and carry out projects.
5. Well-developed ability to manage their own learning, to make use of scholarly reviews and primary sources in order to communicate information, ideas, problems and solutions to both specialist and non-specialist audiences.
6. Well-developed qualities and transferable skills necessary for employment requiring: a) the exercise of initiative and personal responsibility, b) decision-making in complex and unpredictable contexts, c) the learning ability needed to undertake appropriate further training of a professional or equivalent nature.
7. Provide evidence that successfully meets the requirements of the Teachers' Standards.
8. Demonstrate substantial knowledge and understanding of the context of EYFS / primary education and the National Curriculum with a critical approach to pedagogy.
9. Demonstrate sound knowledge and understanding of the context of primary education and the ability to effectively monitor and assess all aspects of the curriculum.
10. Demonstrate effective pedagogical skills and the attributes required to teach across the age and ability range and Key Stages.
11. Provide an evidence-based understanding of the school and classroom processes of pupil learning, monitoring and assessment.

Awards

On successful completion of the course, students will be awarded a BA (Hons) Childhood: Primary Education with QTS. Students who successfully complete 360 credits (including all mandatory modules at levels 4, 5 and 6) without meeting QTS requirements, may be eligible for a BA (Hons) Childhood: Primary Education. Students who leave the course early may be eligible for a DipHE Childhood: Primary Education on successful completion of 240 credits including all mandatory modules at levels 4 and 5.

Course Delivery

The course is delivered at Ipswich at the University of Suffolk. Students studying full-time on BA (Hons) Childhood: Primary Education with QTS will be taught within a blended learning environment where structured tutor-led learning is delivered both on-campus and online. Students are likely to have approximately 48 hours structured tutor-led time per module for level 4, 44 hours structured tutor-led time per module for level 5 and 40 hours structured tutor-led time per module for level 6. This tutor-led time will be a mix of synchronous and asynchronous learning activities such as lectures, seminars, tutorials, and learning activities.

School placements are synchronised with the primary school year (September to July) and are therefore longer than the University's academic year. Each year, students will spend 1 day a week in school during the school term and also undertake a block placement near the end of the academic year (May-June). During block placement, students will be in their placement school for 5 days per week. The block placements increase in length through the course so that by Year 3, the students will be undertaking the majority of planning, teaching and assessing within their placement class for a period of 10 weeks. Placements will be arranged by the ITT providers.

Students will normally be expected to undertake 12 hours of independent study per academic module in an average week, alongside independent study and preparation related to the school placement and practice module. Students should be prepared for this to vary based on assignment deadlines and class exercises.

Course Assessment

A variety of assessments will be used on the course to enable students to experience and adapt to different assessment styles. The assessment methods used will be appropriate to assess each module's intended learning outcomes. Overall, assessment on the course will be mostly coursework (including portfolios, essays, reports, presentations, group work, reflective learning journals and research projects) alongside some traditional essay based and multiple-choice examinations and practical assessments.
